Nat Norman

Great Music at Home Is Told by Boston Monitor

The Christian Science Monitor for Boston, Mass., has given a copyright release to Hope Star on three of a series of articles just published by that national newspaper. The Star is publishing these today, Friday and Saturday, to highlight the Open House of Klipsch & Associates at their new in-town offices, 115 N. Louisiana St., Hope, this Sunday from 2 to 6 p.m.

Today's opening article is by Nat Norman, for 21 years research specialist at Bell Laboratories in New York and an early associate of world-famous high-fidelity authorities, including Major Armstrong, inventor of F.M. Mr. Norman holds seven U.S. patents, including one on the program amplifier — the Western Electric 1128 — used in a majority of radio and television stations today.

By NAT NORMAN
Written For The Christian Science Monitor
"And the night shall be filled with music,
And the cares that infest the day
Shall fold their tents,
Like the Arabs,
And as silently steal away."

When Longfellow wrote the lines quoted above, only wealthy people could command private performances by professional musicians. Even those fortunate and usually titled individuals could hear musical masterpieces performed by great artists only on rare occasions, unless like the Esterhazys they could afford to maintain a Haydn and a symphony orchestra on the estate.

How fortunate we are to live in an era when, for the price of a few season subscriptions to a concert series, we can command a performance in our own homes by the world's greatest artists, the world's greatest orchestras, or a choice theatrical group.

We can, if we wish, move the Salzburg Cathedral organ into our own living rooms, and entertain our friends with a Mozart program played in Mozart's style on one of the great composers' Continued on Page Two

Weather

Experiment Station report for 24-hours ending at 7 a. m. Thursday. High 59; Low 31; trace of precipitation. Total 1948 precipitation through February, 4.96 inches; during the same period a year ago, 5.33 inches.

Arkansas Regional Forecast

By THE ASSOCIATED PRESS
All sections of Arkansas: Clear to partly cloudy this afternoon, to night, and Friday, warmer Friday afternoon, highest this afternoon, low 50s central, near 50 northeast, mid to high 50s southeast and southwest, low to mid 50s northwest; lowest tonight, low to mid 30s.

ARKANSAS: Generally fair and rather cold this afternoon and tonight, Friday partly cloudy and warmer. Highest this afternoon in 50s, lowest tonight in 30s; highest Friday afternoon, mid 50s to low 60s.

MISSOURI: Fair, west partly cloudy east today and tonight, warmer today and west and north tonight, Friday partly cloudy. Warmer east and south tonight. High today 40s northeast, mid 50s southwest. Low tonight generally in the 30s.

LOUISIANA: Clear to partly cloudy and rather cold this afternoon and tonight, warmer Friday, lowest 35-45 interior tonight.

Advance Road Plans Rejected in the House

LITTLE ROCK (AP) — The Arkansas House today rejected a Senate bill which would have required the Highway Commission to set its road programs for four years in advance.

Red "no" lights loaded the roll call board when a vote was taken. No tabulation was made, as the bill was so obviously defeated.

The sponsor, Prairie Rep. John P. Betell, then withdrew the measure.

The bill also would have required the Highway Commission to give construction priority to secondary roads.

Also defeated was a bill to permit unions to obtain state charters in case they are refused a charter by their national affiliate.

The House adopted a uniform vehicle code by a 52-25 vote. This code was contained in a Senate bill which now goes to Gov. Orval E. Faubus.

Negro Faces Charge of Rape, Robbery

EL DORADO, Ark. (AP) — Louie B. Mitchell, 23-year-old El Dorado Negro, faces charges of rape and robbery in connection with an alleged attack on an elderly white widow here.

The charges were placed against Mitchell in Union Circuit Court. He pleaded innocent yesterday to the robbery charge. He has not been arraigned on the rape count.

Police said the 70-year-old woman, who lived alone, reported that a man broke into her house early Tuesday, raped her after threatening her with a knife and stole her

Sex Relations Revealed in Union Probe

WASHINGTON (AP) — Chicago Teamster official Joey Glimco spent a Los Angeles vacation in the same hotel room with his slaphappy secretary and charged it off as union entertainment, the Senate Rackets Committee was told today.

Alfonso Calabrese, a staff investigator, said Glimco and Miss Laverne Murray stayed at the Bol Air Hotel in Los Angeles in 1953 at a cost to Glimco's local of \$1,045.65. Calabrese testified they were registered as man and wife.

Miss Murray, a petite brunette with curves accentuated by a light gray dress, repeatedly invoked the Fifth Amendment in reply to committee questions about her relationship to Glimco.

Committee staff members said Glimco, president of Chicago Teamster Local 777, is married and the father of two children.

At one point, Miss Murray refused to tell the committee whether she once moved into a home at 1215 N. Oak Park Ave. in Oak Park, Ill., and once recorded as owned in her name and that of Glimco.

The committee contends nearly \$50,000 in union money was used in building this home and another dwelling for Dominic Senese, also a Local 777 officer.

An Illinois contractor refused to say today whether part of the money he was paid by the local for a headquarters, remodeling went into the two homes.

"I honestly believe my answer might tend to incriminate me," said the contractor, Frank Pantalao, Oak Park, Ill., in reply to committee questions.

All Around Town

By The Star Staff

The Hope Bobcats simply didn't figure from the start to go anywhere in the State cage tournament and Leachville made it definite 76 to 58. Hope trailed 18 to 4 at the end of the first quarter and its some credit to the Bobcats that they pulled themselves together to score 35 points in the final three periods. Watkins was high scorer of the game with 8.

Marine Pfc. Roland N. Ross, son of Mr. and Mrs. George D. Ross of Hope is serving with the First Marine Division at Camp Pendleton, Calif. and took part in amphibious exercises recently off the coast of Southern California.

The name of Larry Moore was left off the merit roll which was published last week.

Croighton R. Middlebrooks, Hope, representative of New York Life

Insurance company's Arkansas general office, is among a group of new agents in a spring career conference at Baker Hotel, Dallas, March 9-11.

Four Henderson State Teachers College students will participate in the Arkansas State Speech Festival at Conway March 12-13. The group includes Bill Andrews of Hope.

John T. Byrd, grand master of Free and Accepted Masons of Arkansas, will make his official visit to the lodge of the 2nd District March 23 with Pleasant Valley No. 20 at Nashville as the host lodge.

Religious Emphasis Week ceremonies will be held at the University of Arkansas March 16-18 among the ministers who will participate is Dr. John McClanahan, First Baptist Church, Hope.

Statehood for Hawaii Seems to Be Snowballing Bulletin

By HARRISON HUMPHRIES
WASHINGTON (AP) — Congress today voted admission of Hawaii to the Union as the 50th state.

WASHINGTON (AP) — In a move to speed Hawaii statehood the House today shelved its own bill and took up the measure passed 76-15 by the Senate Wednesday night.

With opposition hopelessly outnumbered, final passage of the bill to create a 50th state was expected by midafternoon.

House leaders expressed confidence of sufficient support to defeat any amendment which would require a subsequent House-Senate conference or concurrence of the Senate. One such step was eliminated by taking up the Senate-passed bill.

Final enactment today would give Hawaii an opportunity to enter the Union formally as a state as soon as late July. It could be October, however.

The sponsor of the House bill, Chairman Leo W. O'Brien (D-N.Y.) of the House Territories Committee, agreed in advance to the idea of adopting the Senate pattern. House approval, 4th graf 19-2429

WASHINGTON (AP) — Statehood for Hawaii, an issue in Congress for 40 years, burst into full flame today as both Senate and House prepared to take up the bill.

With passage apparently assured, the big question was which chamber would win the race to act first to add a 50th star to the flag.

In the Senate, the Hawaii admission bill is co-sponsored by 56 senators, more than a majority. In the House, Chairman Leo W. O'Brien (D-N.Y.) of the Territories subcommittee predicted a margin of 100 votes for the bill.

The House Rules Committee cleared the way Tuesday for House consideration of the measure under procedure allowing six hours of general debate in addition to time spent considering amendments. Action may come Thursday. The Senate arranged to take up the measure after disposing of a draft extension bill.

By HARRISON HUMPHRIES
WASHINGTON (AP) — The House was geared today to take final congressional action to make Hawaii the 50th state.

The Senate voted 76-15 Wednesday night in favor of statehood for the mid-Pacific islands. The vote came after only one day of debate.

The sponsor of the House bill, Chairman Leo W. O'Brien (D-N.Y.) of the House Territories subcommittee, said he was prepared to amend his measure to conform exactly to the Senate-passed bill which had 56 co-sponsors.

House approval of a conforming measure would send the bill directly to President Eisenhower. His signature would pave the way for state elections in time to seat two Hawaii senators and one representative in the House in this session of Congress.

Any variance between House and Senate versions of the bill would require Senate-House conferences and subsequent votes of concurrence.

Rep. John R. Saylor (R-Pa.) pressed for an amendment to give Hawaii two House members. He said Hawaii, with about 600,000 population, is entitled to two representatives under the apportionment formula adopted by Congress in 1941.

Gov. William F. Quinn arrived in Washington by air too late to witness the Senate vote.

An impromptu celebration in the old Supreme Court chamber of the Capitol. Quinn thanked Senate leaders for their vote of confidence in Hawaii's people.

"Hawaii," he said, "has a destiny in the Pacific and a mission to accomplish. We are conscious of that mission and will do our utmost to carry it out."

News of the Senate vote reached the islands at mid-afternoon and was greeted with joy.

Acting Gov. Edward E. Johnson proclaimed a two-day holiday to mark the moment the House passed the statehood bill.

Alford Election Fate Set April 15

WASHINGTON (AP) — The disputed election of Rep. Dale Alford (D-Ark.) may come up for discussion at a meeting of the House Administration Committee April 15.

The committee was reported yesterday to have agreed informally to consider then a possible investigation into Alford's written victory over Brooks Hays, also a Democrat and veteran member of the House.

There have been charges of irregularities in the election.

Legislature Gives Okay to Highway Funds and Adjourns on Schedule

Filibuster Beats Bill to Pack LR School Board

LITTLE ROCK (AP) — A bill to add three members to the Little Rock School Board was killed in the Arkansas Senate today through a last-hour filibuster by Sen. Sam Levine of Pine Bluff.

Levine held the floor for 30 minutes and made final action on the bill impossible at the session, which ended today.

Levine argued against Senate adoption of House amendments to the bill, which would have increased membership on the board through a special election.

Failure of the bill means that membership on the board will remain at six. The present members are divided three to three in their attitude toward the integration controversy.

Earlier in the session the Senate had killed a bill which would have permitted Gov. Orval E. Faubus to add three members to the board.

Draft Extension Sent to President

WASHINGTON (AP) — Legislation extending the draft law four years was sped to President Eisenhower today by the House.

By voice vote and without debate, the House approved a Senate amendment to a bill which passed the House last month. The amendment dealt with the pay of doctors and dentists in the armed services.

Macmillan to Germany to See Adenauer

By BRACK CURRY
BONN (AP) — British Prime Minister Harold Macmillan flew into Bonn today to see West German Chancellor Konrad Adenauer and said the West must adopt an elastic position in trying to meet the Soviet challenge to Berlin.

"We all stand together, but in the methods of defense we must remain elastic," Macmillan told newsmen at the airport.

The British Prime Minister arrived half an hour after Soviet Premier Nikita Khrushchev took off from East Berlin for Moscow. During eight days in East Germany he had plugged as hard as ever for a German peace treaty and showed himself still determined to wrest West Berlin from the Western Allies.

Macmillan's visit to Adenauer was his second stop on a swing around the major allied capitals to discuss Western policy in the light of his talks with Khrushchev in Moscow. The Briton met with President Charles de Gaulle and Premier Michel Debre in Paris earlier this week and goes next week to Washington.

Macmillan remarked today that the West is "still a long way from our goal" of finding means of countering the Soviet threat to West Berlin. But he stressed that the West remains "resolute and firm on our principles."

Acres for Peas Sought in Hempstead

Hempstead county has been suggested as a possible source for the production of black-eyed and purple hull peas for a frozen food company states County Agent Oliver L. Adams.

The company has indicated a need for 5,000 to 6,000 acres within the state to meet their needs. It has been indicated that the price will be \$80 per ton and the firm will furnish transportation from the area if sufficient quantities are available to load trucks.

Farmers with an interest in the possible production of such peas are asked to advise County Agent Adams not later than Saturday, March 14. If sufficient interest is shown the field man for the company will be contacted to provide definite information and to make contracts with farmers.

Services at Delight for Mrs. McFadden

Services for Mrs. Nancy B. McFadden, who died in Iowa City, Iowa, will be held at 2 p.m. Friday at Bill Town's Cemetery near Delight with Herndon-Cornelius in charge. Survivors include a daughter, Mrs. C. C. Lewis of Hope.

UA Coaches Dinner Guests

4-H Council Plans Program Here Saturday

The Hempstead county 4-H Club county council will meet for the planning program of the year and to elect new officers at 9:30 a. m. Saturday at the county courthouse, first floor courtroom.

The program will include discussion on talent program, fairs and exhibits, special study days, and other activities available for the members. James Cummings, a recent delegate to the Junior Poultry Fair Finding Conference at Kansas City and the State 4-H Club Congress at Little Rock will report on the two meets.

All club members and leaders are invited to attend.

House Won't Act on the Senate Amendments

LITTLE ROCK (AP) — The Arkansas Legislature completed final action on the big Highway Department appropriation bill today — a few minutes before final adjournment of the biennial session.

The development means that a threatened special session — such as was necessary in 1957 — was avoided.

The Senate withdrew three amendments it had placed on the appropriation bill and then passed it in the same form the House had adopted it.

The vote for passage was 21 to 7.

The bill now goes to Gov. Orval E. Faubus, who is expected to sign it.

Both houses adjourned at noon, the hour fixed by law for ending the 60-day session.

In the Senate Sen. Jerry Scrivens of Hazen tried vainly to stall the vote on the bill, but was shouted down.

The Senate receded from the amendments in one voice vote and then passed the bill.

Passage of the bill in its original form was considered a defeat for Faubus, who had favored the amendments.

Two years ago Faubus had to call the legislature back for a special session after the regular session expired without adoption of a highway appropriation bill.

Briefly this year's difference concerned the Senate tacked onto the \$170,000,000 appropriation bill.

The House refused to accept the amendments and the Senate had refused until a last night, when its projected day ended, to trace from them.

A joint Senate-House conference committee recommended that the Senate cancel the amendments.

Twenty-four affirmative votes were required for such action and only 22 were obtained on a roll call.

The Senate amendments were designed to set a 12 million dollar a year limit on maintenance expenditures, fix a minimum \$120 an hour wage for laborers and establish priorities for expenditures to favor secondary road construction.

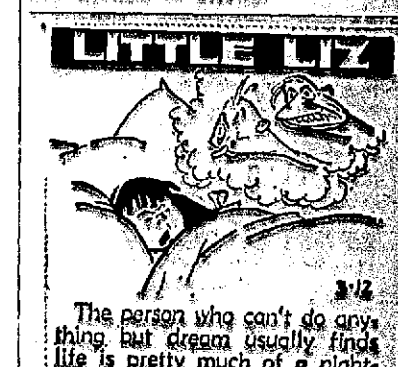

The House yesterday passed, after amending the measure, a Senate bill to permit election of three additional members to the six-member Little Rock School Board, now split three to three in its approach to the integration controversy.

The amended bill went back to the Senate, which previously had tabled a House bill that would have empowered Faubus to appoint the three new members.

The House amendment would provide for a runoff as in a primary election, if no candidate for a specified position got a majority in the initial balloting.

It also would permit Faubus to fill vacancies on the school board.

Michigan in Bad Shape Financially

By ROGER LANE

LANSING, Mich. (AP)—Democratic Gov. C. Merwin Williams today applied to the Republican-dominated Senate to approve an increase in Michigan's borrowing ceiling to 50 million dollars in an effort to ease the state's financial crisis.

The proposal to increase the bonded debt ceiling from \$250,000 to the multimillion-dollar figure passed in the House Wednesday of its third try. Speedy Senate approval is necessary if the proposal is to be put on the April 3 state election ballot as a constitutional amendment proposal.

The higher debt ceiling is one of several proposals which have been advanced to ease Michigan's financial pinch in the face of a mounting state deficit expected to reach 110 million dollars by June 30. Administrative officials say the 50 million dollars must be raised to enable the state to meet current expenses until the Legislature can enact new tax legislation.

Money raised through the higher borrowing limit would be for state payrolls, aid to welfare recipients, and payments to contractors.

Other proposals advanced to meet the tight financial pinch include mortgaging the state's 30-million-dollar veterans' trust fund, a one per cent increase in the current three per cent state sales tax, and a graduated state income tax.

Williams has maintained the income tax proposal is the fairest method of raising needed funds. Republican leaders say Williams' income tax proposal would exempt many lower bracket earners and place the burden on middle- and high-income groups.

The veterans trust fund was established in 1946 by the Legislature to provide emergency assistance to state veterans of World War II. It was amended in 1953 and 1954 to include Korean War veterans. Under the act, interest money on the fund can be dispensed by a board of trustees.

Michigan's political picture is complicated by the fact that the House is split exactly even between Democrats and Republicans. The Republicans hold a substantial edge in the Senate.

The Legislature pared Williams' budget recommendations for fiscal 1957, 1958 and 1959, and rejected his new tax proposals, resulting in a deficit spending course over that period.

Williams submitted a 424-million-dollar budget Jan. 30 and asked for a new 140-million-dollar tax program to finance it.

Currently, the state is delinquent more than 15 million dollars in appropriations due its three major state-supported universities. Next week the state will find itself 35 million dollars in arrears in payments to the school districts.

Williams ordered drastic cuts in state spending. State Controller James Miller estimates some five million dollars will be saved by June 30 through the cuts. But Miller said much of the amount is deferral of outlays that will have to be made later.

Admits Money for Political Friends.

WASHINGTON (AP)—Rep. Charles A. Buckley (D-N.Y.) said today his \$36,437 annual allowance for office help goes to eight political friends in New York City who do part-time work for him.

The veteran New York congressman also said four staff members of the House Public Works Committee, of which he is chairman, work in his congressional office here or do part-time jobs for him in New York.

He made the comments in a letter to the House.

Mrs. Frank Turberville has returned from Texas City, Texas, where she was a guest of Miss Maude Braswell.

Weekend guests in the home of Mr. and Mrs. Nat Woolley were Bobby Woolley and Miss Lucy Wicks, students at Southern State College, Magnolia.

Mr. and Mrs. Thurman Haynie and Mr. and Mrs. Belmer Tyree and son spent Sunday in Camden with Mr. and Mrs. Earl Haynie.

Mr. and Mrs. David Hanning and daughters of Arkadelphia were the weekend guests of their parents, Mr. and Mrs. Thell Hanning and Mr. and Mrs. Clifton Yancey.

Great Music at

Continued From Page One

favorite instruments.

Of what is even better, the miraculous, we can hear Tchaikovsky's "Festival Overture 1812," played as the composer originally intended, uniting the efforts of a symphony orchestra, a brass band, the firing of cannon and the ringing of many bells.

Not even Tchaikovsky ever heard it on such a tremendous scale. Only the ability of electronics to bridge time and space could bring about a performance combining the efforts of the Minneapolis Symphony Orchestra, the University of Minnesota Brass Band, the bells of the Hurdman Memorial Tower at Yale University, and a Napoleon brass cannon at West Point.

Strand Violins Available.

If our taste in music runs to quieter works, the string quartet of Beethoven, performed on the collection of Stradivarius instruments of the Gertrude Clark Wittall Foundation by the Budapest String Quartet, and recorded in the Elizabeth Sprague Coolidge Auditorium of the Library of Congress, can be ours to enjoy in our own homes whenever we wish, even though the donor's will provides that the priceless instruments themselves may never be removed from the Library of Congress in Washington, D.C.

All of these wonders are at your command when your interest is high fidelity. And the cost—well—who can set a price on a marvel? It is a matter of relative values.

There is almost no limit to how much you can spend, but there is an upper limit to what you need to spend. In almost every case, the most expensive item is not necessarily the best and no one manufacturer makes all of the items which comprise an ideal sound-reproducing system.

By doing much of the assembly and wiring yourself, you can indulge hobbies such as electronics, cabinetmaking, and decorating while saving significant amounts of money which would otherwise be spent on features that contribute little or nothing to the over-all objective of excellent sound reproduction.

Big Leap 30 Years Ago.

Eventually, you will want a system which represents the "state of the art" or you will not be able to enjoy your lesser system for long periods, after visiting friends who have such ideal systems. What is the "state of the art," and how stable is it?

The big improvement in sound reproduction began over 30 years ago in the Bell Telephone Laboratories with the invention of the "electrical" recording system which led to the "Orthophonic Victrola" of 1925.

Further improvements led to the electrical moving coil pickup for reproducing records and to "electrodynamic" speaker systems which convert electrical signals back into acoustic energy with a high degree of exactitude.

What is now known as "hi-fi" sound was then called "high quality" sound. Actually, "hi-fi" has been with us a long time, 25 years at least. It was not promoted commercially as a home entertainment medium at that time, but was exploited as "muzak" in restaurants and some apartment houses.

Its excellent potential qualities were often downgraded to meet the requirements of architectural limitations and to enable loud speakers to be located unobtrusively.

So the techniques and materials of "hi-fi" have been with us for a long time. It is only their application to home music systems in the last 10 years which is new. The best equipment available today is not significantly different from that of 25 years ago, and no basic patents responsible for the sudden popularity and availability of such equipment.

Techniques Long Known.

Long-playing records, for example, are made today using processes, materials and techniques which were developed here at Bell Laboratories, and at the Cruff Laboratory at Harvard in preparation of recording the proceedings of the Harvard Tercentenary in 1937, and reported in detail in the technical journals of that period.

In addition to the long playing record, we also have available today libraries of tape recordings, which, for those who want the best, offer means of reproduction which are so true to the original that the difference between the signal in and signal out cannot be detected by the keenest ears.

Improvements foreseen at the present time are no more likely to make present equipment obsolete than improvements in piano manufacture are likely to make a Steinway Grand obsolete. And when we speak of "state of the art" equipment, we are referring to the "Steinway Grand" level of quality. Thus, fear of obsolescence need not deter one from investing upward of \$4,000 in such a sound system, using the word "sound" in both senses.

We are fortunate in having among us, working on other projects now, some of the pioneer inventors who have made "hi-fi" what it is today. Thus, it is possible to get expert opinions on available equipment without venturing into the market place.

Mr. and Mrs. David Hanning and daughters of Arkadelphia were the weekend guests of their parents, Mr. and Mrs. Thell Hanning and Mr. and Mrs. Clifton Yancey.

Mr. and Mrs. Nat Woolley were the weekend guests of their parents, Mr. and Mrs. Thell Hanning and Mr. and Mrs. Clifton Yancey.

Mr. and Mrs. David Hanning and daughters of Arkadelphia were the weekend guests of their parents, Mr. and Mrs. Thell Hanning and Mr. and Mrs. Clifton Yancey.

Man to Trial for Slaying His Wife

MENA, Ark. (AP)—A former bakery owner, accused of slaying his wife while their five children watched in terror, was scheduled to go on trial for his life here today.

Tom Durand, 31, of Las Vegas, N. M., is charged with first degree murder in the death of Mrs. Rose Durand, 27.

Mrs. Durand was shot to death on a highway about eight miles east of here Jan. 5.

Durand was arrested as he drove into Mena with his wife's body in his car and his children screaming in fear.

Police said a passing motorist notified them that he saw the slaying and watched a man put the woman's body in his car.

Officers said Durand had stopped a pickup truck in which Mrs. Durand, her mother and one of the children were riding. Four of the children were with their father in his car.

The Durands had separated at Las Vegas. Mrs. Durand had brought one of the children with her to the home of her parents, Mr. and Mrs. Modesto Romero, at Mena.

Police said Durand and the four children living with him drove from Las Vegas to Mena the night before the slaying.

The children, who ranged in age from 18 months to 7 years, were taken back to Las Vegas to live with their grandfather.

where the opinions expressed are likely to be commercially influenced. Here is a list of components which most experts consulted agree are representative of the "state of the art."

House Won't Act

Continued From Page One

caused by death, resignation, abandonment, or otherwise.

The House rejected an emergency clause, which would have made the bill effective immediately on signing by the governor.

Effective date under the House action would be June 11.

The House defeated a Senate bill, agreed to by the trucking industry, which would have increased license fees on heavy trucks.

It passed a second Senate bill to increase from 64,880 pounds to 73,280 pounds the maximum truck weight on highways.

The action went counter to the wishes of Faubus, who pleaded himself in a letter to the speaker, to veto the second bill if the truck increase was defeated.

Appointment Made by the Governor.

LITTLE ROCK (AP)—R. A. Young Jr., of Fort Smith, has been appointed to the University of Arkansas Board of Trustees, Gov. Orval E. Faubus' office announced yesterday.

Young replaces Henry S. Youm Sr., of El Dorado. He will serve until March 1, 1960.

Two other appointments also were announced.

L. M. Greene of Siloam Springs will serve a five-year term on the Arkansas State Penitentiary Commission, replacing O. W. Fletcher of Paragould, and Max Cohen of Danville will serve until April 1, 1967, on the State Board of Public Welfare, replacing R. A. Engel of Little Rock.

10 YEARS AHEAD OF ITS TIME.

Policy issued by Old Reliable Arkansas Company (Non-Cancellable, no waiting periods, Accidents, Sickness, Surgery, TB, Heart Trouble, Cancer, etc.) All covered from date of application recognizes M. D.'s, Osteopaths, Chiropractors, Chiropractists, D.D.'s, pays for pulling teeth, up to \$500 for each accident or sickness, pays for prescriptions at drug store. Good any hospital. Call —

Detroit Bowlers Are Challenged

ST. LOUIS (AP)—Another well-armed challenger will attempt to wrest the American Bowling Congress Tournament title from the Detroit Preflitters tonight.

Stroh's Beer, also of Detroit, will try to better the record 3248 series which put Preflitters in first place in the open division more than two weeks ago.

The Munsingwear team of Chicago, led by Buddy Bomari, was the latest team to fall short of Preflitters' imposing score. The club rolled a 2847 series Wednesday.

It passed a second Senate bill to increase from 64,880 pounds to 73,280 pounds the maximum truck weight on highways.

The action went counter to the wishes of Faubus, who pleaded himself in a letter to the speaker, to veto the second bill if the truck increase was defeated.

No coffee is more treasured for its full-bodied flavor than the famed Medellin. But it is only one of five great coffees blended in today's ADMIRATION. For no one coffee could give you all the deep-in-the-cup richness of ADMIRATION'S exclusive blend. Try RICHER ADMIRATION... nothing else can be so completely satisfying.

RICHER ADMIRATION

* Hand-cultivated on the approaches to the snow-capped Andean peaks of Colombia, Medellin coffee beans must be brought to market on steep foot trails. But they're so rich in flavor

Says Women Careless in Buying Clothes

By DOROTHY ROE
Associated Press Women's Editor

Heaven help the American family if women shopped for food as carelessly as they do for clothes, says Editor Head, Hollywood's most famous designer and author of a just-published autobiography, "The Dress Doctor."
"Most women are perceptive about their homes, their furniture, their children and their meals," says the small, dynamic Edith, who has dressed most of the famous movie stars from Clara Bow to Sophia Loren. "But the average woman has a blind spot when she looks at herself."

Miss Head, a former French teacher in California schools, is fashion chief for Paramount Pictures, a post which she has held through a generation of movie glamour girls. She lives in Beverly Hills with her husband, Ward Linn, designs all her own clothes as well as those of the stars.
"Fashion can be whimsy," says she, "but dressing well doesn't just happen. Dress designing is not cute, but clinical and strictly

were arranged by Jerry Adams, Jeanette Hulsey and Bonnie Watson on the "can-can" arrangements. The winners will enter arrangements in the Hope Flower Show.

The meeting was called to order by the president, Jeanette Hulsey. Marilyn Hamilton gave the opening prayer. The group recited the Junior Garden Club pledge. The secretary, Marilyn Hamilton read the minutes of the last meeting.

Mrs. J. O. Luck, sponsor, representing the Rose Garden Club of Hope, took charge of the meeting. Mrs. Luck discussed the planting of different kinds of flowers to beautify the school yard. The group made a tour of the grounds to locate flower beds.

Cookies were served and the meeting adjourned.

Mrs. Olen Overturn Entertains L.L. Sunday School Class
The L.L. Sunday School class of First Baptist church met in the home of Mrs. Olen Overturn.

Mrs. Van McMunn gave the opening prayer followed with the devotion given by Mrs. John Turner.

A short business session was led by the class president, Mrs. Bob Westbrook.

The hostess served a delicious snack tray to six members present.

scientific. I make up my clothing prescriptions as seriously as any doctor. And believe me, some of my patients' need them."

"There's no excuse for a woman being badly dressed today," says Edith. She feels strongly about the general appearance of the American woman in the supermarket.

"So many women seem to feel that they're invisible when they go shopping, so they turn up at the market wearing everything from tattered pants to house dresses, with their hair in pin-curls and any old shoes at hand," she says.

Old Bunch Is Still Power on ALC Group

LITTLE ROCK (AP) — The Arkansas Legislative Council for the 1939-40 interim period will have several new faces and will be without several members of the Legislature's Old Guard.

The Legislature yesterday selected 20 members of the council and rejected some veterans in doing so.

Prominent among those not re-elected was Prairie Reb. John P. Bethell, an active candidate for speaker of the 1981 House.

House members from Bethell's second Congressional District ignored Bethell's desire to retain his council seat and instead elected Woodruff Rep. Jack Onkes and Jackson Rep. Louie Ethelridge.

Council members are selected from each congressional district by members from that district.

Others who failed to win re-election were Sens. Clifton Wade of Fayetteville and Max Howell of Little Rock and Reps. Marcus J. Howell of Phillips, Gerald J. Partee of Stone and Hardy W. Croxson of Benton. Some of them did not seek re-election.

Other newcomers include Sens. Russell J. Elrod of Siloam Springs and Guy H. Jones of Conway, and Reps. Lucile Rogers of Clarendon, W. H. Thompson of Polk and F. A. (Pat) Teague of Carroll.

Re-elected to the House were Joel Y. Leebelter of Pulaski, Milton Willis of Crawford, Carroll C. Hollenworth of Brinkley, Paul Van Dalsem of Perry, Raymond L. Mays of Cleveland, Virgil T. Fletcher of Saline and Marlon Crank of Little Rock.

Senate returnees are Charles F. Smith of West Memphis, Tom Allen of Brinkley, Marshall Shackelford Jr. of El Dorado and Jack Shelton of Monticello.

In addition, Sen. Roy L. Rallos of Mona replaces Sen. J. Lee Borden of Leachville in the post reserved for the president pro tempore of the Senate and Mississippi Rep. E. C. Fleeman replaces Pulaski Rep. Glenn Waller in the post set aside for speaker of the House. Fleeman was a member of the last council.

Members of the Legislative Audit Committee also were named.

Incumbents from the Senate are Fred H. Stanford of Marked Tree, Robert Harvey of Sylvania and James T. Slack of Arkadelphia.

New Senate members are Dan White of Port Smith, Howell and W. Byron Hurst of Hot Springs.

House members are James J. Edwards of Mississippi, Russell Benton of Fulton, Paul M. Graham of Lawrence, Johnny Boatright of Sebastian, Lowell Whittington of Franklin, C. L. Duffett of Union, Ode Maddox of Montgomery, Sterling Cockrell Jr. of Pulaski, Clay Brazill of Conway, Dewey D. Stiles of Hot Spring and Ray S. Smith Jr. of Garland.

Space Flight Money Gets Quick Okay
WASHINGTON (AP) — The House Space Committee today gave unanimous and speed approval to President Eisenhower's request for another \$48,554,000 to speed America's progress in space flight.

The House group under Rep. Overton Brooks (D-La.) acted on the heels of Senate passage of the bill Tuesday by a 9-0 vote.

The House committee added one minor proviso. It stipulated that before any contracts are signed under a \$500,000 emergency fund authorized in the bill, the House and Senate Space committees go

scientific. I make up my clothing prescriptions as seriously as any doctor. And believe me, some of my patients' need them."

"There's no excuse for a woman being badly dressed today," says Edith. She feels strongly about the general appearance of the American woman in the supermarket.

"So many women seem to feel that they're invisible when they go shopping, so they turn up at the market wearing everything from tattered pants to house dresses, with their hair in pin-curls and any old shoes at hand," she says.

DOROTHY DIX

Don't Mark the Grave as You Bury the Past

Dear Dorothy Dix:

Am I selfish in thinking the way I do? When we moved into my new home three years ago we did not receive gifts from any of our in-laws. Now some of those in-laws are moving into a new home. Should I treat them as they treated me or bring gifts as is the custom in these parts? It isn't the cost that bothers me, it's the remembrance of how they treated me — Daisy.

Dear Daisy: Nothing was ever gained by harboring a grudge, no relationship was ever benefited by remembering nasty things that someone did years ago. I believe in burying the past, and even forgetting where you left the grave. Bring a gift and you'll always have the satisfaction of knowing you weren't small.

Dear Dorothy Dix: I'm a fairly popular girl with one interest in life — Jack. He's a popular boy, plays in many

notified of the intent to award the contracts.

Brooks said this would allow the congressmen to keep in closer touch with what is being done on space projects by the National Aeronautics and Space Administration.

sports events, which I have been attending because of him. He's very friendly to me, goes out of his way to talk to me, but he never has asked me for a date. He's always leaning about my ex-boy friend, saying how sad I look etc. Fact is, I was very happy to cancel out the episode. What can I do to encourage Jack? He doesn't go with any other girl — Green.

Dear Green: Jack may not be as quick at romance as he is at running the mile, but he'll get there sure enough. Your tactics are working, don't change 'em.

Dear Dorothy Dix: Cheryl is a newcomer to our school. We grew quite friendly and I know he liked me, until I brought him home and he saw my next door neighbor. Since then he has been calling on her and hasn't given me a thought — Jilted.

Dear Jilted: This is the sort of thing that makes a woman out of a girl. It's part of growing up. The best card for a sprained heart and wounded ego is another boy.

Dear Dorothy Dix: I've just become engaged. All my friends have heard about it and want to see my ring. Trouble is I don't have a ring. I wish my

Woman in Texarkana Case Faces Charge

LITTLE ROCK (AP) — A former woman wrestler arrested at a Texarkana motel Jan. 25 after a gun battle with lawmen will be extradited from Arkansas to Texas where she will face a robbery charge.

Barbara White, 36, is charged in a \$500 robbery at Dallas.

Dan Stephens, assistant to Gov. Orval E. Faubus, said after an extradition hearing yesterday he had found the woman was in Dallas at the time of the robbery.

Also charged in the holding is George Albert Scott, 37, formerly of Little Rock, who was captured with the woman at Texarkana.

Stephens said the woman told him at the hearing she was married to Scott, who was extradited to California recently. Scott was wanted on charges of murder and robbery in the killing of Kennedy F. Savoy, an executive of the Samuel F. Goldwyn movie studio, during a holdup at a Los Angeles bar last December.

Stephens would hurry up and get one but he doesn't seem to be overanxious — Nancy F.

Dear Nancy: At 16 you are apt to be more interested in a diamond ring than in actually being engaged. Postpone this engagement until your fiancé can afford a ring. By that time you may be ready for marriage. You aren't now.

Morse Leads Fight to Limit Draft

WASHINGTON (AP) — Sen. Wayne Morse (D-Ore.) led a last ditch fight in the Senate today to limit extension of the peacetime draft to two years instead of the four urged by the administration.

His chances appeared slim in the face of unanimous approval by the Senate Armed Services Committee of the four-year extension and previous House passage by a 400-heavy vote.

Senate leaders had planned to push the bill to a vote Tuesday night, but they postponed action until today when Morse came up with a long floor speech opposing the measure.

Pending at the time was a proposal by Sen. Francis Case (R-SD) to set up a Presidential commission of six civilians and one military member to study the draft and other military manpower issues and recommend any needed changes to Congress by June 31, 1961.

Morse told the Senate that Congress was being stampeded into "ultimatum-type legislation" because of the Berlin crisis.

Bobcats Lose in State Cage Tournament

FORT SMITH, Ark. (AP) — The Class AA State Basketball Tournament heads into its quarterfinal round today with one of the top teams already eliminated and Fort Smith's Grizzlies looking stronger than were in the favorite role.

Pine Bluff, the only team to beat Fort Smith all year, was upset last night by Forrest City, 38-51.

Fort Smith was scheduled to meet North Little Rock at 2 p.m. today in the quarterfinal opener. Fayetteville and Jonesboro were set to go in the second afternoon encounter.

Tonight, Van Buren meets Leachville and Blytheville faces Leechville.

Semifinals are carded tomorrow night and finals are scheduled Saturday night.

Forrest City's stunning victory over Pine Bluff was the first victory for a Class AA team since the combined meet was originated a year ago. Donnie Kessinger of Forrest City spoiled the victory by tying the tournament individual scoring record of 29 points.

In other first-round games yesterday, Van Buren defeated Smackover 62-46. Leachville bounced Hope 78-59 and Blytheville edged Conway 48-41.

Fort Smith, North Little Rock, Fayetteville and Jonesboro had entered the quarterfinals with first-round victories Tuesday.

Pine Bluff was considered along with AA power Van Buren as most likely to upset Fort Smith.

If the Grizzlies win today, they will face the winner of the Fayetteville-Jonesboro game in the semifinals.

Danny Greenfield and Dick James scored 22 points each in leading Van Buren to its first tournament victory over Smackover. David Watkins of Hope turned in a 26-point performance against Leachville. But seven men scored nine points or more for Leachville, pacing the Lions' first-round victory. Gaylon Ward led with 15.

Freddie White scored 15 points for Blytheville and Kent Darwin led Conway with 13. Calvin Barber and Sammy Barker each netted 16 for Smackover in its losing effort against Van Buren.

Fights Last Night

By THE ASSOCIATED PRESS — Boston — Tony DeMarco, 147, Boston, stopped Curley Monroe, 147½, Worcester, Mass., 38, Jan. 1958, at Newton Mass., outpointed Al Andrews 16½, St. Paul, 9.

Canada Hockey Team Favored

PRAGUE, Czechoslovakia (AP) — The Belleville McFarlands were favored today to take the world ice hockey championship back to Canada for the second consecutive year after turning back Russia in a key game.

With six teams including the United States remaining in the final stage of the round-robin play, Canada and Czechoslovakia were the only clubs unbeaten. Both have won two games, as has the United States, defeated only by Russia.

The Canadians met an undermanned Swedish team in today's play, while the Russians had to go against the Czechs who rested Wednesday. The Soviets are favored on performance, but they had a rough game with the Canadians who finally won 3-1 in what many believed was the decisive game of the tournament.

The United States has the day off, but plays the Czechs Friday and Canada on Saturday.

Butler Dark Horse in NIT Meet

NEW YORK (AP) — Butler, a dark horse from the Midwest, opens the National Invitational Basketball Tournament tonight, keyed to a high pitch for an upset of Fordham.

"It's time for action now," exhorted Butler Coach Tony Hinkle.

A turnout exceeding 10,000 is expected for the game which is the first of a doubleheader at Madison Square Garden. In the second first-round game St. John's (NY) battles Villanova.

Despite their record of winning 18 of their last 21 games, the Bulldogs from Indianapolis are rated four-point underdogs to Fordham.

St. John's is favored by eight points over Villanova, making its first appearance in the NIT.

The first round will be completed with a doubleheader Saturday afternoon pitting Manhattan against Providence and NYU against Denver.

Negro Shot to Death at Penal Farm

LITTLE ROCK (AP) — Freddie Lee Brooks, 23-year-old Little Rock Negro, was fatally wounded yesterday in a Pulaski County Penal Farm shooting that was ruled accidental.

Farm Supt. M. L. Cherry said Brooks was shot when another prisoner bumped against a shotgun held by Cullen Johnson of Little Rock, a trusty.

Dr. Howard A. Dishongh, Pulaski County coroner, held the death was an accident.

Play in NIT Takes Cage Spotlight

By DON WEISS
Associated Press Sports Writer

Butler plays Fordham and Villanova challenges St. John's (NY) in a first round doubleheader as the National Invitational Tournament steps into the spotlight tonight.

The doubleheader at New York's Madison Square Garden tips off the 22nd annual edition of the NIT. The NCAA small college tournament reaches the semifinals at Evansville, Ind. The NAIA scramble goes into the quarterfinals at Kansas City, and the National Collegiate (NCAA) tournament takes its last breather before plunging into four big regional tournaments.

Fordham (16-7), one of four teams from the New York area in the 12-team tournament, that winds up March 21, is a four-point favorite over Butler. The Indiana team shows an 18-8 record but has nailed 18 victories in its last 21 starts after dropping its first five.

St. John's (16-6), apparently out of the slump that struck after the Redmen had won 12 of their first 13, is an eight-point choice over Villanova (18-6).

The NCAA tournament moves back into prominence Friday night with regional doubleheaders at Charlotte, N.C., Evanston, Ill., Lawrence, Kan., and San Francisco.

The field of 16 was completed Wednesday night when Idaho State's Rocky Mountain perennial nipped Border Conference champion New Mexico State 62-61. Idaho State playing in the NCAA for the seventh straight year, will meet St. Mary's (Calif.) in the Far Western regional at San Francisco Friday night.

The Friday lineup reads like this:

Far Western at San Francisco: Idaho State (20-6) vs St. Mary's (18-5); California (21-4) vs Utah (21-5).

Mid-West at Lawrence: Texas Christian (19-5) vs Cincinnati (23-3); DePaul (13-9) vs Kansas State (24-1).

East at Charlotte: West Virginia 26-4 vs St. Joseph's (Pa) 23-3; Boston U. (19-6) vs Navy (17-5).

Lenoir Rhyne College of North Carolina furnished the eye-opener in the small school battling Wednesday, snapping Grambling (La.) 28-game unbeaten streak 88-78 in a second round NAIA game. Lenoir Rhyne was joined in the quarterfinals by Pacific Lutheran, West Virginia Wesleyan, defending champion Tennessee A&T, Ft. Hays (Kan.) State, Southwest Texas State, Illinois Normal and Georgia Teachers.

Host Evansville topped its tournament conqueror of a year ago, St. Michaels (Vt) 82-62, and moved into the NCAA small college semifinals with North Carolina A&T in tonight's semi-finals as Friday night while the NAIA winds up its week-long run Saturday night.

Economy May Be Dangerous for Both Sides

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Democrats and Republicans are on a delicate see-saw which may affect the 1960 elections as well as the national economy.

The trouble is that both sides are involved in economic theories and neither can predict with certainty the result of their actions.

President Eisenhower is dedicated to the idea of keeping down government spending in order to balance the budget, which can only be done if the government's revenue from various taxes equals or exceeds its expenses.

There is one way, of course, to be sure revenue is bigger than costs, and that is to raise taxes. No one is talking about that with any enthusiasm.

The Democrats argue there isn't anything necessarily sacred about balancing a budget at a time when 4,700,000 people are unemployed and they say, the government must encourage sufficient growth.

A couple of examples show the split between Democrats and Republicans on what is needed.

The Democrats on the joint congressional Economic Committee this week issued a report with which the Republican members disagreed.

But some of the Democrats didn't see eye-to-eye on every thing and neither did the Republicans.

"While a balance or even a surplus in the budget is desirable in times of maximum employment," the Democratic majority report said, "neither the soundness of our money nor our potential for economic growth and stability in 1959 and thereafter necessarily depends on balancing a 77-billion-dollar federal budget."

Eisenhower proposed a 77-billion-dollar budget. He estimated that if spending could be held to that limit, and if there were some added revenue like increased gasoline taxes and postage rates, the government would wind up about 70 million dollars ahead.

The Republicans on the committee denied the Democrats had any monopoly on wanting to see the country grow and accused the Democrats of being "cloudy and

Building Damaged by Wind at Ozark

OZARK, Ark. (AP) — A building housing a compressor station of the Arkansas Western Gas Co., about 15 miles north of here, was damaged by a heavy wind last night.

The metal walls were blown down and the roof was blown off. The compressor machinery itself was not damaged.

A house trailer, serving as an office for the station, was rolled over several times by the wind. It was damaged badly.

Several barns in the area were reported unroofed.

No injuries were reported, and there was no monetary estimate of damage.

The wind was accompanied by rain and hail.

LEE AND LINCOLN

NEWPORT NEWS, Va. (AP) — Robert E. Lee and Abraham Lincoln will be closely associated in the future as real comrades in arms. A fleet ballistic missile submarine here will be named the Robert E. Lee and a sister ship under construction at Portsmouth, N. H., will bear the name of the former president.

The longest accessible natural bridge in Arkansas is about three miles northeast of Clinton on U. S. 65.

unclear.

Eisenhower has repeatedly contended that inflation — or less purchasing power for the dollar — is one of the penalties of unbalanced budget spending.

So much for theory. Meanwhile, Democrats and Republicans are split on specifics.

In a surprise move last week Democratic leaders in Congress called for a one-year extension of the emergency unemployment compensation program voted by Congress last year. It is due to end April 1.

Tuesday House Republican leaders lined up with the President against what they called any lengthy extension of unemployment pay. They specifically hit at extending it a year, but indicated a shorter extension might be considered.

It isn't hard to see the political implications if unemployment continues at its present high level or goes higher.

Then there's the question of national defense. Eisenhower asked for what he considered enough money for this. Democrats are challenging his position on this and are talking of voting more money for defense.

Mixed up in all this are other problems — like the amount to be spent on foreign aid, and so on — but most of them are still in the talking stage.

No matter which side has its way, the economy will be affected. Since both sides are dealing in theories, each can only hope it knows what's best.

Horse Kissing Dies Out as a Major Art

NEW YORK (AP)—In the old Westerns, the hero usually wound up being kissed by his faithful pony.

Because of a growing feminine interest in these hoofbeats, however, horse kissing has died out as a major American art.

To please the ladies in the audience, the story now ends with the hero in a tender clinch with the faithful dance hall hostess—and the faithful horse can go eat grass for all anybody cares.

Kissing pretty actresses seems an ideal job to the average man. But there are days when Gene Barry would just as soon turn this chore over to a stand-in.

For a temperamental actress, he implied, can be worse than a temperamental Mustang.

"Some of them try to give you that old feminine filth," Gene said.

"Then it's pretty hard to make love to them. But a fellow can always manage to always ask myself, 'If their own mother loved them, why can't I?'"

Barry, like that real-life Western character, Billy the Kid, was born in New York City. In his first stage role, he played Bluebeard in the sixth grade in Public School 121 in Brooklyn.

He began his professional career at 16. He sold jewelry, shoes and ladies' wear before making the big time on Broadway.

Since then, he has been in a dozen films, traveled the night club circuit, and appeared on more than 100 television shows before he hit the real pay dirt as Bat Masterson.

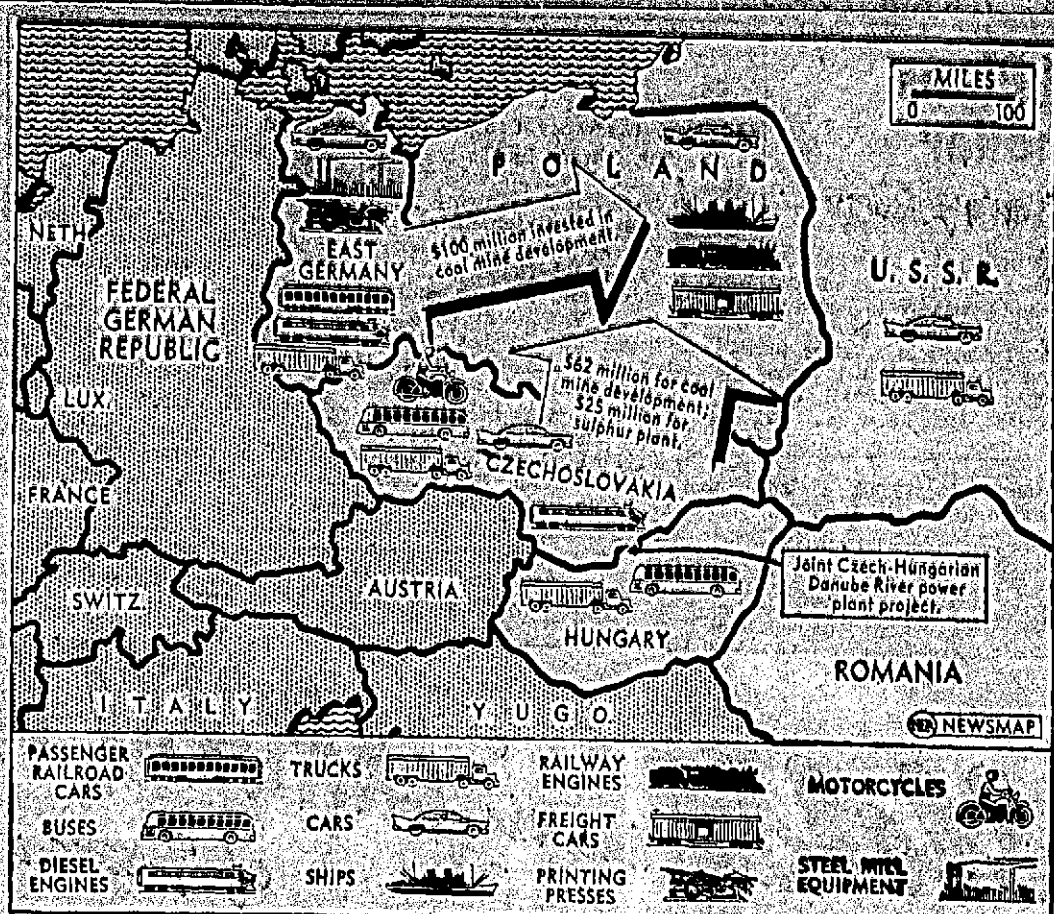

His derby hat, tight suit and gold-horned cane—often takes the place of a pistol—are now symbols of elegance to the teenagers (and middle-aged ladies) who idolize him.

He hopes to go on to directing and producing. But if the present mania for Westerns should fade and leave him stranded—unlikely, since he is a man of many talents—he's ready to take up a new career.

"I'd go in for contracting and building," he said, "I recently built my own house, and I like the field."

Barry recently said his goal was to have "a greater concern for the more simple and basic things" in life.

Then he added with a grin: "But first you gotta get rich. Then you don't have to worry about dough and can afford to squander your money on the simple, basic things."

WELDING THE CURTAIN TIGHTER—Gradually and quietly, the economies of the Soviet bloc nations in Europe are being geared together. Goal is to synchronize the industrial output of all the Communist countries with Russia's just-launched Seven Year Plan. Newsmap above illustrates how production of certain items is divided among East Germany, Poland, Russia, Czechoslovakia and Hungary. Also, how members of the bloc are investing in each other's development. Quantities to be produced, and monopolies in some fields, have been worked out under the watchful eye of the U.S.S.R., upon whose markets and materials the satellite nations are greatly dependent.

News Briefs

OSLO, Norway (AP)—The Norwegian government today pledged to ban export of munitions to areas where there is war or threat of war.

Prime Minister Einar Gerhardsen gave Parliament this pledge in reply to criticism of the government for accepting an order during Cuba's civil war. The pledge was made to avert a resolution of no confidence filed by an opposition parties.

TEHRAN, Iran (AP)—The Iranian Senate today unanimously approved the defense pact signed with the United States March 7. The pact's signature will complete the ratification process.

NORRKÖPING, Sweden (AP)—A Swedish air force pilot has been charged with careless driving in a supersonic jet fighter. A police report says the pilot came close to colliding with a Scandinavian airliner about 6,000 feet above the airport at Norrköping last Jan. 19.

TOKYO (AP)—Some 100,000 persons attended the Christian

about the reported attack by Iraqi fighters Tuesday on the Syrian border village of Hamoudiya. The planes had been reported strafing rebel villages in north Iraq. The Middle East News Agency reported a house was destroyed in Hamoudiya.

In Baghdad, crowds hailed Nasser in effigy and blamed him for the brief, unsuccessful army revolt against Kassem in northern Iraq.

The occasion was the funeral of a Communist leader, Kamel Kazzang, whose death was blamed on pro-Nasser Arab nationalists in the center of the revolt.

Troops guarded the deserted U.A.R. Embassy in Baghdad. Kassem expelled nine members of his staff Tuesday after his forces put down the revolt.

The U.A.R.'s Middle East News Agency circulated reports that the Iraqi Communists were leading a big purge of pro-Nasser Arab nationalists in Mosul. Demonstrations in Damascus denounced the "monstrous barbarian acts in Iraq" and shouted, "The Iraqi martyrs will go to paradise."

Kassem now is expected to lean more than ever on the Communists for his principal support. Reliable informants here predict the Iraqi Reds will launch a sweeping purge of Arab nationalists which will leave the Communists in virtual control of Iraq and its rich wells from which the West takes about 500,000 barrels of oil a day.

West to Offer Summit Meet Late in Year

WASHINGTON (AP)—The Western powers are expected soon to offer the Soviet Union the definite possibility of a summit conference later this year.

The major Western condition for a top level meeting probably will be that an earlier conference of foreign ministers should make progress toward settling the Berlin crisis.

There is behind the scenes British dissent on this point, however. London leaders have informed other Allied governments they believe that direct and personal negotiations with Soviet Premier Nikita Khrushchev will have to be arranged sooner or later in any case.

The central strategy on which all the Western powers are agreed is that negotiations must be played to the fullest limit possible in order to overcome the danger that the Berlin dispute could eventually explode into a nuclear war.

President Eisenhower told a news conference Wednesday that "we are certainly not going to fight a ground war in Europe."

He declined under questioning to say fully that the West would resort to nuclear war if the Soviets started grooving in Germany. But he did hold open that possibility, apparently for the "deliberate purpose of warning Khrushchev."

While the news conference discussed the funeral of former Prime Minister Ichiro Hatoyama, it also noted a recent attack last Saturday at the age of 78.

STILLWATER, Okla. (AP)—Paul M. Butler, Democratic party national chairman, said Tuesday that according to polls, Sen. John Kennedy (D-Mass.) leads the pack for the party nomination as president. But, he said, it's a long time before next year's party convention.

Butler told a news conference he was not writing off Adlai Stevenson as a candidate, but added that to get the nomination, a man must seek it.

"There are a lot of people who think you will have a chance to win your Stevenson buttons again in 1960," he said. "In my opinion, the country has never had a man so well qualified to be president as Stevenson."

Driving Snow Lashes Across Northeast

BY THE ASSOCIATED PRESS

A driving snow storm slashed at the northeastern section of the nation today, moving eastward from Ohio and making highway travel treacherous.

At Delaware, Ohio, a 56-year-old miner was killed in an auto-truck collision, the first storm-related death.

In New York City, about four hours after the snow started falling before midnight, 12 inches were measured by the Weather Bureau, which predicted moderate to heavy accumulations before the fall abated in the afternoon. It already was the heaviest snowfall of the winter for the city. The heaviest previous fall was 3 inches Dec. 8.

In Western Maryland, state police reported 8-12 inches in the mountains, with mixed snow and rain across northern counties. In western, central and northern Pennsylvania, authorities issued warnings of hazardous driving. In all affected areas, sanding crews were out in force attempting to keep highways open.

Snow accumulations during the early morning hours amounted to 8 inches in sections of western Pennsylvania. Some flights were canceled at the Greater Pittsburgh Airport.

As snow moved into Connecticut, the Weather Bureau forecast 4 to 8 inches. Temperatures were slightly under freezing. The storm moved northeast from the southwest, where it originated in

cussion concentrated on the dangers of an all-out conflict if the Berlin crisis were pushed to that point, administration officials said. Eisenhower and all of his chief aides believe that Khrushchev will stop short of a military showdown if the West shows firmness and determination in defending its Berlin position.

On the diplomatic front, the next move is up to the West. It may come early next week in the form of new notes to the U.S.S.R. from the United States, Britain and France.

These notes are expected to call for a foreign ministers conference at Geneva about May 11 to deal with the whole German problem, including Soviet proposals respecting Berlin and a German peace treaty.

The Soviet Union has said a foreign ministers meeting should be limited to those two points.

Syria Students Demonstrate Against Iraq

By WILTON WYNN

DAMASCUS, Syria (AP)—President Nasser accused Iraqi Premier Abdel Karim Kassem today of isolating Iraq from Arab nationalism and trying to bring all Arab peoples "under a Communist reign of terror."

This was the strongest attack Nasser has yet made on Kassem. Speaking to students demonstrating before the presidential palace, he used words much harsher than he did Wednesday when he criticized Kassem for hostility to the United Arab Republic.

"Nasser alluded to the strength of the U.A.R. Air Force."

"We are determined never to another Arab state or to kill another Arab brother," he said in

explanation of why the U.A.R. had simply protested a reported Iraqi air attack Tuesday on a Syrian village.

The attack had attended Baghdad announcements of the collapse of the nationalist rebellion against Kassem's Communist-influenced regime.

"We are capable of returning the blow double, but we refrained from doing so because the villages we would have hit are purely Arab villages, with which we have close Arab ties," Nasser said.

Taking their cue from Nasser's bitter speech Wednesday, the Cairo press branded Kassem a Communist agent.

Schoolgirls in black and white uniforms hoisted big U.A.R. flags and marched to the presidential residence where Nasser is staying. A pupil with pink ribbons tied to her pigtail led classmates in chants denouncing Kassem and proclaiming Arab solidarity.

Older students converged on Nasser's headquarters as anti-Kassem fever mounted.

Cairo papers pinned the hero label on the leader of the brief abortive army revolt in Iraq. Col. Abdul Wahab Shawal, who, Baghdad reported, was slain.

"The world," said Al Ahran, "has witnessed the true face of Kassem, another face of (former Iraqi Premier) Nuri Said, a distorted continuation of Nuri and a paid agent just as Nuri was."

This was a pointed reminder of the days before Kassem's forces overthrew the pro-Western Nuri and killed him. In those days the West had its money on Nuri and the Soviet Union was backing Nasser for the leadership of the Arab world. "Now the Communists were on Kassem's side and Nasser was blasting them."

There was a sharp split between the Communists in Iraq and Moscow, however. The Iraqi Reds accused Nasser of fomenting the revolt. Moscow was trying to blame the West, but the Soviet propaganda did not appear to be having much effect on the disputants.

The U.A.R. protested to Iraq

U. S. Hands Britain an Atomic Plant

WASHINGTON (AP)—The United States is turning over to Great Britain an atomic power plant of the type developed for its newest high speed attack submarines.

The Atomic Energy Commission announced today that the government has authorized the transfer of a complete Skipjack-type propulsion plant together with spare parts, design information and related secret data.

The Skipjack is the latest of the U.S. nuclear-powered subs. Its trials are reported to have racked up a record underwater speed but figures are secret.

The power plant being turned over to the British will go into the submarine Dreadnought, now under construction.

Oil Industry Fights for Tax Allowance

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — As it is learning to live with the new federal import curbs the oil industry today is fighting off another of the perennial congressional attacks on its depletion tax allowance.

This exemption as set up in 1928 by Congress provides that 27½ per cent of each barrel of crude oil produced would be considered as used up capital assets and as such wasn't subject to income tax payments.

A limit was placed: The exemption couldn't be more than 30 per cent of the net income of the particular oil producing property, and each property should be treated as a separate unit.

This allowance often is challenged as giving the oil companies undue preference when figuring corporate income taxes. It is accused of giving individuals getting their income solely from oil wells as having a running start on others whose incomes come from different sources.

The allowance for depletion of natural resources applies to other minerals. The percentage for sulphur and uranium is 23 per cent for metals 15 per cent; for coal 10 per cent; for sand and gravel 5 per cent.

The oil industry puts up a strong fight each year against such charges. It fears that this year Congress may be more in the mood to cut the size of the allowance.

Hunting for oil is one of the world's most risky businesses. It is also an expensive trade.

One of the chief talking points of the oil industry is that there must be an incentive to get enough risk capital put into oil exploration.

They say that without such an incentive as the depletion allowance holds forth for the successful discoverer there would be precious little more oil found in the United States.

They stress that they would find more oil in the interest of national security.

Those in the industry who produce oil only here or use most of the oil produced here say that unlimited imports of cheaper foreign oil could stifle the domestic search for more oil. Then, in times of emergency, with foreign oil perhaps cut off, the nation would be in a bad way.

Those who have oil sources overseas and other fuel competitors argue we should use more foreign oil and hold on to what we have for such an emergency.

Missouri Escapee Arrested at Gravette

GRAVETTE, Ark. (AP)—A man wanted as an escapee from a Missouri jail was arrested at a roadblock here yesterday and jailed at Bentonville.

Police identified him as Vernon West, 37, of Miami, Okla. They said he fled from a jail at Nogoshko Mo. Monday night after being booked there on a larceny charge.

Army Claims Need for More Than Budget

WASHINGTON (AP)—Army officials are sticking to the view that they need a bigger force than President Eisenhower's budget provides, Sen. Lyndon B. Johnson (D-Tex.), said today.

"One conclusion is inescapable," Johnson said. "That is that the size and composition of the Army does not reflect the judgment of the men who must lead the Army in the event the Army must be

used."

The Senate Democratic leader told newsmen of the Army reaction after a closed-door session in which his preparedness subcommittee questioned the ground force leaders.

Sen. Stuart Symington (D-Mo.) said Gen. Maxwell D. Taylor, Army chief of staff, had shown "very clearly" that he completely disagreed with the administration position on the Army's size.

Taylor himself told newsmen "the simple facts of history show I twice have recommended 925,000 men" for the Army. Asked if this remains his position, he nodded.

Under the administration's budget plans, the Army is being

Ford Plans a Smaller Economy Car

DETROIT (AP)—Ford Motor Co. has become the first of the Big Three auto makers to confirm it will build a smaller car.

The company said in a letter to stockholders Wednesday that barring changes in the small car market, Ford will introduce an

economy model sometime this fall.

Neither General Motors nor Chrysler, the other two members of the Big Three, had any comment on the Ford announcement. Both have published company positions in previous statements.

The latest of these was Tuesday when L. L. (Tex) Colbert, Chrysler president, told a news conference in New York that Chrysler had a small car in the testing stage but had not yet decided whether to put it on the market.

The GM stand was incorporated in the company's 1958 annual report by Frederic G. Dornier, board chairman, and John F. Gourdou, president. The executives told

shareholders the corporation was continuing studies to be prepared to produce smaller cars in the event demand warranted them.

The Ford announcement was made by Henry Ford II, president, and Ernest R. Breech, board chairman. Their letter said that the company had been studying the small car situation for several years.

"Barring changes in the market or other circumstances," the letter said, "the company plans to introduce such a car during the 1960 model year."

Ford and Breech said the car will be in competition with other economy cars, including cars expected to be produced in this

country by other American manufacturers.

The predictions generally are that new models planned by the Big Three will be of from 108 to 110 inch wheelbase. This is about 10 inches shorter than regular Chevrolet and Ford models.

PARSON PROBLEM

MEMPHIS, Tenn. (AP)—A Memphis physician says his records show two thirds of the ministers are 20 per cent overweight—but places the blame on the congregation.

"Too many (ministers) eat a lot to please the people who invite them into their homes," Dr. Otis Warr said.

"NURSE TRUCK"—Odd-looking vehicle shown in Napa, Calif., is "nurse truck." The gun-like projection carries fertilizer from truck hopper to a flexible spout which feeds the fertilizer into the aircraft at rear. The planes then "bomb" evenly a swath 30 feet wide from a height of about 100 feet. While cost of aerial application is relatively high, it is reported profitable on large spreads. Method offers additional advantage of fertilizing quickly to take advantage of good weather.

NOT MODERN DESIGN—The rapid development of the modern aircraft hasn't resulted in a propeller-shaped propeller like this, "Blades bent" when the four-engine commercial airliner crash-landed in a Lansing, Mich., field.

Some Good, Bad in Hour With Gobel

By WILLIAM EWALD

NEW YORK (UP)—George Gobel hailed down his NBC-TV season Tuesday night with an hour that pointed up some of the shortcomings and longcomings of Gobel.

Gobel's principal asset always has been his littleness. He was the wee man boxed in by life who somehow managed to squeeze slabs of sly humor out of a crushier world. It was possible to feel rapport with this because it is one of the conditions of human beingness to feel an isolation, solitariness. And it is always heartening to watch a fellow gull joking about it all.

But the problem with the on-stage Gobel of recent seasons is that the rapport has begun to wither. He looks sick now. He has fattened on success. He even resorts to "inside" ready jokes—Tuesday night, for example, playing the "room in a wedding sketch, one of his lines went: "Me nervous? Why, no—the whole wedding was on cards"—a reference to the cue cards TV performers frequently use.

Playing a Viennese chess champion in an unfunny sketch, he was all wise guy. On the other hand, earlier in the show, he came close to his old self in the role of a bewildered bellhop trying to coax a man off a window ledge—it was, not so incidentally, a very funny sketch enlivened considerably by the presence of Paul Lynde.

The trouble with later period Gobel is that there hasn't been enough of this Lilliputian George and I suspect there may be a paradox in this: A funnyman is constantly in danger of losing touch with himself and consequently, with his audience as a result of his success.

It would be ideal if all comedians could be kept semi poor and semi-successful and semi-crushed, but that, of course, is impossible. But as a starter, it might be worthwhile for all funnymen to divest themselves of their swimming pools, golf clubs and pinky rings and return to their unslicked selves.

The Channel Swim: Returns of the old mystery series, Suspicion, are being talked about as the summer replacement for NBC-TV's "Solve It With Us." Alan Jay Lerner and Frederick Low, composers of "My Fair Lady," are readying two TV specials for next season.

CBS-TV will fold Your Hit Parade on April 24 and move the starting time of its Western, Rawhide, up a half hour into the 11:30-12:00 slot. May 1, Rawhide will be followed by the Friday night lineup by The Invisible Man, which was jerked off the network earlier this year.

ABC-TV's one hour telecast of the circus on Monday night drew a neat 18.0 Trendex. Some of the new series ABC-TV is plotting for next season include a Robert Taylor crime series, and a western about an insurance investigator, Cry Fraud; an hour series, War Against Crime; a situation comedy about an Ozark family, Cissie; a police series, The Big Walk; a Dick Clark panel show, World of Talent; and a Mike Wallace panel show, Take A Good Look.

There's talk that Hope Emerson may pull out of NBC-TV's Peter Gunn for another series—She plays "mother" on Peter Gunn. Betty Comden and Adolph Green will do parts of their recent Broadway show on CBS-TV's Ed Sullivan Hour April 19. Claudette Colbert, Cyril Ritchard, Cedric Hardwicke and Gertrude Berg will star in Perry Como's NBC-TV Tuesday special March 24.

CBS-TV will launch the first of a new series of one hour daytime specials in May beamed specifically at women. Folk singer Jean Ritchie has joined Marge and Goor Champion, Jane Wyman, Genevieve, Robert Merrill and Herb Shriner in the cast of "American Passes For Springtime," a one hour special set for CBS-TV March 30.

Campy's Son Called Juvenile Delinquent

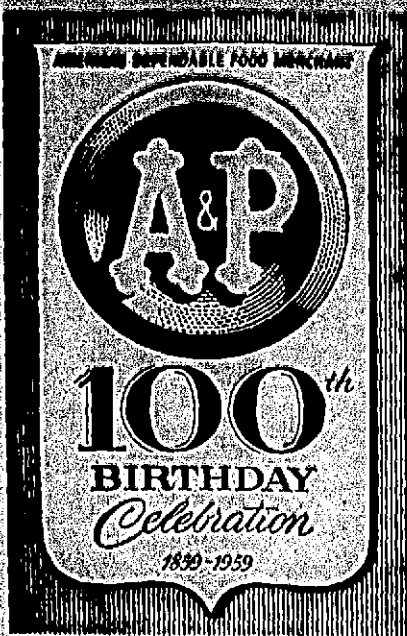

By ROBERT FARRINGTON
NEW YORK (AP)—David Camp, 15-year-old son of former baseball star Roy Campanella, was formally adjudged today a juvenile delinquent for breaking into a drug store. He was paroled into the custody of his mother and a Catholic priest.

Children's Court Justice Sylvia Lees told reporters after the closed-door hearing that she had ordered the youth to stay off the streets at night unless accompanied by an adult.

She said she also directed him to keep up with his school studies and try to lead a normal life, pending completion of a full psychological and psychiatric examination.

Justice Lees said David admitted breaking into a Queens drug store on a dare shortly after midnight Feb. 15, but that he denied taking anything.

Police previously said the Negro boy admitted breaking into the store with a white youth and taking cigarettes, toothpaste and \$3 in cash. The druggist said he lost over \$1,200 in cash, merchandise and checks.

Protection for Newsmen Is Recommended

By KENNETH WHITING
Associated Press Staff Writer

"I think reporters for newspapers, radio and television should have the same safeguarded relationship with news sources as lawyers have with clients and doctors with patients," an Illinois lawmaker said before introducing a bill in the state Legislature.

The proposed law by Rep. Michael Zlatnik (Chicago) is part of a widespread move to extend protection to reporters who refuse to name the source of the news they gather.

Proposed new laws or amendments have been introduced in the

Benton Businessman Killed in Accident

BENTON, Ark. (AP)—A Benton businessman was killed and another man was injured in a highway accident between here and Sheridan last night.

Dead is Jim Ryburn, 38, a partner in the Ryburn-Packer Ford Agency at Benton.

He and Lavelle Langley, owner of Benton's Radio Station KBBA, were traveling in an automobile which overturned on Highway 35. Officers said the car apparently hit the highway shoulder and Ryburn, the driver, lost control. The car rolled over twice.

U.S. House of Representatives and at least 10 state Legislatures in the wake of the widely publicized Marie Torre case.

Miss Torre, a radio-TV columnist for the New York Herald Tribune, served a 10-day jail sentence for contempt of court. She declined to name the source of comment about entertainer Judy Garland she used in a story. The publicity spurred attempts to detail just how far a newsmen may go in protecting his sources.

Four separate bills are pending in New York state, some of Miss Torre's trial and conviction. They provide that (1) no newspaper publisher, editor or reporter could be compelled to disclose the source of information committed confidentially; (2) persons who gather, publish, broadcast or televise news could not be punished for criminal contempt for refusal to disclose news sources; (3) newspaper, radio and television personnel could not be compelled to testify or disclose sources at any proceedings of any court or government agency and (4) news reporters would have immunity from disclosing sources only if they had pledged secrecy to the source and the information could not have been obtained without such a pledge.

Twelve states already have laws which are generally similar and two of them, Pennsylvania and Ohio, are considering revisions to extend such protection to radio and TV reporters.

The first state to provide legal protection for newsmen was Maryland in 1896. Similar statutes are in effect in Alabama, Arkansas, Arizona, California, Indiana, Kentucky, Michigan, Montana, New Jersey, Ohio and Pennsylvania.

Just last week a trial judge reaffirmed a reporter's right, under the California law, to refuse to reveal the source of a newspaper story.

Fred Sorri, reporter for the Peninsula Herald of Monterey, invoked this section of the state's civil code in declining to answer a question at a perjury trial.

The California Supreme Court previously upheld the constitutionality of the law.

Besides Illinois and New York, new measures have been dropped into legislative hoppers in Iowa, Oregon, Rhode Island, Texas, Vermont and Utah.

AFRICAN UNREST—A new danger spot in troubled Africa smolders in the Central African Federation (see Newsmap above). Rhodesian troops were alerted to Nyasaland in the wake of recent rioting there. The predominantly Negro territory wants to pull out of the white-dominated federation, a British Commonwealth member.

UNITED STATES POSTAGE

NATO STAMP—The 10th anniversary of the North Atlantic Treaty Organization is commemorated in this new four-cent stamp. The four-pointed star emblem for NATO, and the motto, "United for Freedom," is the main design. The blue stamp will be issued in Washington, D.C., April 4.

POLAR BEARING—Diagram above shows how Project "Discoverer" satellites will be launched from California to place them in pole-to-pole orbits. Because earth rotates within orbit, satellite will eventually pass over every portion of the globe.

MEDALIST—Deputy Undersecretary of State Robert D. Murphy has been awarded the University of Notre Dame's Lifetime Medal for 1959. The veteran career diplomat is the 77th recipient of the award which is presented annually to an outstanding American Catholic layman.

ON GUARD—Gazing the Washington scene is this security-conscious soldier of Simon Bolivar, South American father of independence.

"Which way to the complaint department?"

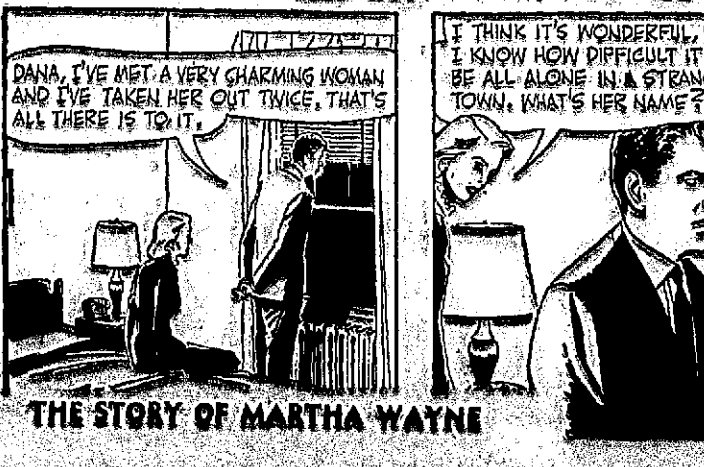

"I don't care how much collateral you put up—you're not getting an advance on your allowance!"

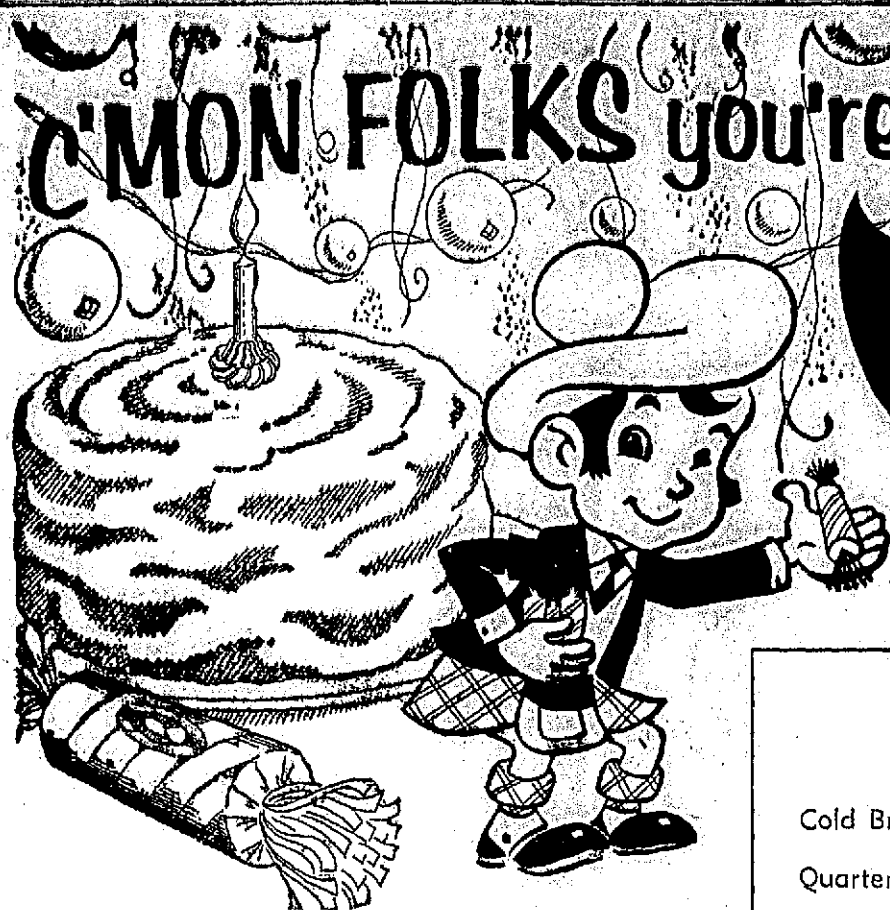

"But, officer, how could you expect me to have a driver's license when those silly judges keep taking it away from me?"

"I don't mind your gossiping about people, Louise, but for the past 10 minutes you've been gossiping about me!"
